WORK EXPERIENCE

Frontend Web Developer

Influencer Haven - *Remote (Startup)*   Sep 2024 - Current

- Building responsive web pages using Next.js, Tailwind CSS, and UI libraries like Shadcn.
- Collaborating with another frontend developer and the backend devs to implement features seamlessly.
- Translating UI/UX designs into detailed and polished web components.
- Writing and maintaining component-level tests to ensure UI stability and reliability.
- Ensuring smooth application structure, performance, and overall functionality.

Freelance Full-stack Web Developer

Remote   Jan 2023 - Present

- Built and deployed around 5+ responsive full-stack web applications with React, Next.js, and Node.js, ensuring top-notch performance.
- Collaborating with designers and developers to create several responsive, user-friendly UIs.
- Ensuring website scalability, performance, and cross-device compatibility in all projects.

Software Development Instructor

Aptech Computer Education - *Ogba, Lagos*   Oct 2023 - April 2025

- Delivered practical lessons in software development, mainly with JavaScript and modern frameworks.
- Guided students through hands-on coding exercises and real-world projects.
- Delicate approach to students' individual growth and understanding.
- Promoted best practices in code quality and maintainability.
- Taught aspiring students languages like JavaScript, Java, C# for almost 2 years.
